JULY FIRST TO BE CELEBRATED WITH SPORT PROGRAM

Patsy O'Brien and Baden Whiteside, Principals on Big Fight Card, Confident

Patsy O'Brien, the fighting Irishman, told of local fight fans, and Baden Whiteside, who will tangle in the main bout on Frank Donald's big boxing program to be staged at the Wapiti Arena on the evening of July 1st, arrived in Grande Prairie on Tuesday last.

Both scrappers looked fit as a fiddle and indulged in a good workout in the afternoon, which they will continue until Friday, when they will rest.

Patsy, who has been on the outside the past two months, fought three battles during that time, winning two and getting a draw.

He defeated Henry Tait in four rounds by a knockout. He got a decision over Lefty Rodde, noted for his killing punch. This was the first time the brawny fighter had won with defeat and Patsy is the first who ever knocked him to the floor.

On Thursday, June 22, Patsy drew with Ernie Zarich, a clever boy from Edmonton. The bout took place at Lacombe.

Whiteside, who lives at Penhold, Alberta, has fought sixty battles, won all but four. He has an enviable record and the following are some of the opponents he has defeated: Bob McDonald, Kid White, Les Stokier, Joe Dwyer, Manly Rile, and August Ted Snyder.

Whiteside, who is an exceptionally clever boxer, should make Patsy show his best work. In reply to a question as to what he thought of his chances, Whiteside said: "I am out to win and expect to do so."

Patsy is not underestimating his opponent. Whiteside is a clever fighter and I am taking no unnecessary chances with him. Of course I expect to be in on the line of end of the purse," was the way Patsy put it.

The Tribune reporter.

If all the boys on the card go the limit, the purse will be treated to no less than \$500 of milking.

James Weber of La Grande, Jim Ferguson of Spirit River, the latter a young giant, will appear in the semi-final.

If this fight is anything like the last one in which these two men met, the boys will get their money's worth right there. Both are aggressive and have no time in getting started. The mil promises to be of the whirlwind variety.

Ronald Swanson of Hythe will meet Kid Dunham of the Black River. Swanson has been seen here before and needs no introduction. Dunham is said to be a tartar. This bout should be a good one.

Kid Thomson of Hythe will tangle with Joe Pender of Grande Prairie. Both these boys are heavy hitters and willing fighters. There should be no dull moments during this encounter.

There will be eight other bouts. There will be all well matched.

Harlie Conrad will be the third man in the ring and Dr. Haynes and E. M. Landt will act as judges. R. P. Plafard will be the timekeeper.

The Wapiti arena will be a scene of light, in fact, as light as day. The seats are so arranged that everyone can see the bouts to best advantage.

Following the card there will be a show at the Capitol, where the musical offering will be Eddie Connor in "The Kid from Spain." This is one of the best picture made in years.

Wemley Board Of Trade Banquet Field Day Judges

There were some fifty couples at the banquet tendered S. G. Carlyle, vice president of the board, for the province. Prof. J. P. Buckville of the University of Alberta, and John Norquay, with the Dominion Live Stock Branch, held the Wemley Board of Trade, held in the Wemley Hotel.

The banquet was a splendid one and was the subject of many complimentary remarks.

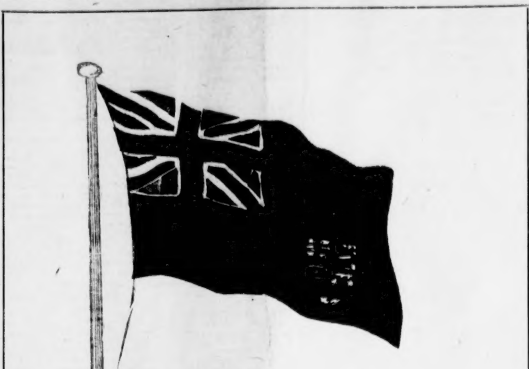

Following the banquet, J. Archer, who was in the chair, called upon W. J. Thomson, district agricultural agent, to introduce the visitors.

Mr. Thomson said that he was in a peculiar position, in that he had to introduce his home, Mr. Carlyle, who was live stock expert for the province and had charge of the Boys and Girls Clubs and school. Mr. Buckville was introduced as the man in charge of animal husbandry of the University of Alberta. J. Norquay, observed Mr. Thomson, has been attached to the Live Stock Branch for many years. The district agricultural agent expressed the wish that the visitors would find time to visit the area more often.

GOLD LEAD REDUCED EFFORTS

LONDON, June 28.—The European gold lead nations redoubled their efforts Wednesday to obtain British support for the gold standard. Unless they are successful, the gold standard countries may be forced off the gold standard basis.

REV. GEO. A. DICKSON, D.D., Minister of Knox United Church, Calgary, who will deliver the patriotic address at Grande Prairie on July 1st.

Where pine and maple grow,
Great prairies spread and bards rivers flow,
How dear to us the vast domain,
From East to Western sea,
Thou land of hope for all who toil,
Thou true North strong and free!

O Canada!
O Canada!
O Canada!
O Canada!

Our home and native land,
True patriot love in all thy sons command,
With glowing hearts we see thee rise,
The true North strong and free;
And stand on guard for thee,
And stand on guard for thee.

Chorus:
O Canada!
O Canada!
O Canada!
O Canada!

We stand on guard for thee,
We stand on guard for thee.

Five Hundred Turn Out to Field Day Craig Farm

Under ideal weather conditions some five hundred people—counting men, women and children—attended the Field Day held at the farm of Alex Craig, situated about ten miles west of Grande Prairie, on Saturday afternoon.

Frank Walker, who was in charge of the party, reported that there were slightly over one hundred cars on the ground. "I'd require some handouts," said Mr. Walker, "so efficient that everything was carried out with admirable smoothness."

Those who attended were after information and it was an earnest audience in which the judges were called upon to address themselves.

O. A. James, president of the Agricultural Society, in opening the program, explained that the Field Day was sponsored by the society, and two can congratulate ourselves in having with us as judges such eminent men as R. G. Carlyle, the stock commissioner for the province, and Professor J. P. Buckville of the University of Alberta.

Professor Buckville, who was the first speaker, took a novel way to demonstrate the type required by the judges. By the use of red chalk he marked out the main cuts on the carcass of a black beef, which P. U. Clabine kindly loaned for the purpose.

Butcher, he said, wanted this type, because it was from the high-cholesterol cuts that they made their money.

Professor Buckville then had something to say from the producer's point of view. He said that experience had taught that an animal that is short in the legs and built along the lines which he described was an easy feeder and for that reason was the most profitable to raise. Fine bone was another essential. He advised those going into the raising of cattle to look for a good head, an animal that was wide between the eyes, and had a short neck.

Following the interesting illustrated talk, the calves exhibited by the boys and girls were judged. This part of the program was the primary reason for the holding of the Field Day.

There were twelve competitors and the competition was the keenest. The judges, S. G. Carlyle and Professor Buckville, took considerable time before finally making their decision. Each of the exhibitors were given a calf to feed by W. J. Thomson, district agricultural agent, and five prizes were exhibited to illustrate forward progress.

IN APPRECIATION OF TWO GOOD CORRESPONDENTS

Shortly The Tribune will lose from its staff Mr. A. L. Carr of Wembley, who has been called to the pastorate of the United Church at Bawit, Alberta.

Almost from the first edition of this "new family journal" Mr. Carr regularly has sent in items of local interest and his weekly news budget informally arrived each Tuesday night. Largely through his efforts, efficient work The Tribune now has hundreds of readers in Wembley and surrounding district.

It is, therefore, with sincere regret that Mr. Carr and I must say goodbye to him.

The other good correspondent, The Tribune is called, but not to leave. G. Melness of Vahalla, who states that he will be away from home considerably this summer, has been asked to leave the paper. However, he has promised to continue his work in the Vahalla district as well as in large measure to his many interesting letters.

The Tribune is exceptionally fortunate in having on its staff of correspondents men and women of character and ability, who volunteer their time and talent to the paper. They are not paid, but they are not without recompense, for—though The Tribune would gladly do so, it is not possible for any paper to equitably pay for correspondence from a newspaper field in large and thinly populated areas like the Peace River country. And may would not accept pay for their services, neither do they desire that their names be known. Both Mr. Carr and Mr. Melness are exceptions.

However, The Tribune is proud of and thankful to its correspondents and writers—and even more so for the many more increase and all districts be well represented in this paper.

FIELD DAY AT ALEX CRAIG'S FARM

Fielding from the large attendance at the Field Day held on Saturday afternoon at the farm of Alex Craig, and the interest shown in the day, it is fair to say that when the Live Stock Department of the provincial government initiated this method of imparting knowledge it hit on the most practical way yet attempted.

While there is and always will be a place for fairs and exhibitions, the said days get closer and closer to the possibility for the larger advantages.

The giving of the reasons for the placing of the animals is certainly constructive and should be lightened. Another feature which makes an immediate appeal is that the miniature exhibition is held around the entries of the boys and girls.

The boys and girls of today become the citizens of tomorrow and the time is not far distant when the agricultural interests of Alberta will fall into their hands. How much more interest and advantage will be for the future of agriculture of the province if those who will eventually take over the responsibility do so with knowledge for the task.

Great credit for the success of the recent field day is due to J. S. Thompson, district agriculturalist, who worked in season and out of season with the boys and girls, giving them of his expert advice. It involved many miles of travel, but the splendid result amply justified the effort.

ALBERTA'S PUBLICITY COMMISSIONER ISSUES BEAUTIFUL BOOKLET

"Alberta, Canada: A Paradise for Vacationists" is the title of an interesting booklet just published by the Publicity Commissioner of Alberta, and is issued chiefly as a tourist guide to the province. It will be for the future of agriculture of the province if those who will eventually take over the responsibility do so with knowledge for the task.

Among the subjects are "Introducing Alberta," "Hunting in Alberta," "Fishing in Alberta," "General Information for Tourists," "Motor Tours Through Alberta," "The National Resources of Alberta," "Condensed Facts About Alberta," "General Alberta Statistics."

A copy of the booklet can be obtained by applying to the office of the Publicity Commissioner, Government Buildings, Edmonton.

Editor of The Tribune.

Dear Sir: May I, with many others, offer my congratulations on your first birthday anniversary?

You have proven a healthy child of the North, adding new interests to the big family of Peace River.

Wishing you Many Happy Returns of the Day.

I am, sincerely,
J. P. GRANT.

DRIFTING - QUERIES

By A. C. L.

A few weeks ago winter was still on, and in a few weeks hence, it will be with us again. The winter of 1932-33 was longer, colder, and summers shorter and drier. As to springs and fall, it was a surprise—more rapidly they seem to be passing—the prevailing of work—like the rays of the sun appear less radiant, and the reflection of the moon less poetic. During such days, droplets of bliss and sweet illusions lose their enchanting mirage and the dreamer looks into the grim eyes of despair. Let us lift our courage, stop our lamentation, for some day prosperity will turn that long expected corner. If you wish to double, you are at liberty to do so, even as pasture.

Officially, or otherwise, we are aware that the present relief must be done away with—that they are a curse and extremely detrimental. Some argue that this is inoperative, for they say capitalism is at stake. But a lot of people talk through their hat. Funds for such a purpose—the providing of work—are not available, for in order to be so, must be improved, and this is getting to be impossible. London depends upon the pound of flesh, i.e., their own money, with little or no interest have no attraction. As a consequence work cannot be provided, though the government is anxious to do so. Will it take more than hundreds of readers in Wembley and surrounding district?

It is, therefore, with sincere regret that Mr. Carr and I must say goodbye to him.

The other good correspondent, The Tribune is called, but not to leave. G. Melness of Vahalla, who states that he will be away from home considerably this summer, has been asked to leave the paper. WEMBLEY BOARD OF TRADE BANQUET FIELD DAY JUDGES

Continued from Page One

He then invited everyone present to the field day.

The first speaker called on was Mr. Treble, who thanked the Board of Trade for the opportunity to be present.

The Wheat King was then introduced. He said that he was glad to be present and to see the people of the district.

Mr. Treble then launched into a discussion of agriculture, which he described as an acute problem throughout the district.

Mr. Treble's opinion is one of the most serious dangers that confronts the people of this area and is a problem that must be tackled.

He then spoke of the fact that for several years he has been experimenting with methods of preventing erosion and he believed he had the problem solved.

He offered to give his farm over for a practical demonstration, and he only had to explain the method.

W. D. Albright, introduced as a method of preventing erosion, and he only had to explain the method.

Mr. Albright said that he thought it would be a good idea to have a field day at Mr. Treble's.

ably better and cheaper than any other province.

Years ago, he said, cattle were shipped to the corn belt in the United States and then finished.

This finished, he continued, was done just as well right here at home, where there is plenty of cheap grain.

Continuing, Mr. Craig said that at one time it was believed impossible to raise a calf in a year. He drew attention to the fact that the calf can be raised in the highest price on the Lethbridge market, and asked why should not the farmers follow the example and raise calves here.

The live stock commissioner did not advise the ordinary farmer to go into stock raising on a large scale, but he did advise having some stock of quality.

Mr. Craig then took the possibilities of the British market, pointed out that there are some forty million people largely dependent on imports for food supplies.

This market, he said, was Canada's natural market, but if Canadian products were to win a place in that market, it would be only to do so on quality.

If quality is to be the greatest advantage, it must be done on quality. If it is to be the greatest advantage, it must be done on quality.

by Professor Blackville, who stressed the value of raising the type which brings the highest price on the market. A great deal of interest was taken in this department and Professor Blackville was asked many questions as to the cost of feeding and its relationship to price.

Another interesting part of the program was the judging of four young bulls belonging to Mr. Craig, who were declared good enough for any herd. As was the case in the other departments, the livestock were asked to pass judgment and they were not backward in doing so.

Program for the Ladies

During the afternoon the following program was held in the Craig home, was enjoyed by the ladies:

Vocal Duet—Mrs. M. and Mrs. G. Shier.

At the conclusion of the interesting afternoon, Mrs. Craig, on behalf of the Agricultural Society, thanked Mr. and Mrs. Craig for the use of the farm and for the beautiful afternoon.

A vote of thanks was moved by Jim McFarlane.

Mr. Craig replied in a most timely and polite manner.

He said he was only too glad to give his farm over for such a purpose and he would gladly do so again.

BEZANSON NEWS

The dance held at the hall on Friday was not as well attended as expected. The small attendance was due, we believe, to the muddy condition of the roads. But if the rain spoiled the roads, it certainly helped to make a crop.

The next dance will be held on Friday, July 7. Lunch will be supplied at two plates for twenty-five cents. Those who wish are at liberty to bring their own lunch and the Hall will supply the coffee.

Crops in the East End are looking fine, and the rain of last week certainly will bring them along fast.

At the close of the meeting it was decided by those present to organize a local at Lindsay, to be known as the Lindsay Local. Enough paid-up members were signed up to be able to send a delegate to the Sexsmith convention.

In the past attempts have been made to have a U. F. A. local in the district, only to spring up and die. But this one is to be different from the others in that it is to be a live-wide concern.

A drive will be put on before long to increase the membership, so just watch this local grow or, better still, get in and help make it grow.

STURGEON LAKE

A fair crowd turned out at the Lake last week-end, despite the unsettled state of the weather. Young men, noted from High Prairie out to Wenden, went, the dance at Taylor's.

Real excitement at the beach this week! A direct descendant of that famous old craft that Noah built took to the water a few days ago and by its graceful performance it could easily be led to believe that that mythical creature still lived.

Original plans behind, she handles very easily too, only three men besides "Skinner" Robertson being required to keep her running and going headstrong.

"Who Cares" stole your line of vision and you walk slowly up the pier, wondering.

The lot of admirers of Dave Cutler's weekly new restaurant is being added to each week-end and Dave continues to go about with that enviable satisfied look on his countenance. Who shouldn't he? Not another member of our aquatic community has the beauty and efficiency of the "Keenies" the lake built at Staley by the Sturgeon Lake Garage.

Alex Williamson's "Pony" was completely wrecked, and George and his wife's working better than ever. Like all the other things—their property, with a few.

Speaking of things improved by aging reminds us that the Bachelors Society (formerly "Club") is contemplating a party or dance of some kind, to show off a little. Special uniforms have been ordered, which will bear an emblem of the society, so that members may be recognized among the more unforgiving of the sex.

While the over-exercised are bivouacked at the Lake on June 30, July 1 and 2, the motorboat "Sturgeon" will provide free boat trips to all children and adults.

The "Sturgeon" will also make round-the-Lake trips at reduced rates for over-exercised.

Buying The Tribune for a dollar a year makes a guy feel like a thief.

WANHAM NEWS

The tennis tournament being held by the Wanham Tennis Club has been postponed until a later date on account of the rain. Much enthusiasm is shown in the tournament and a lot of good games have been played.

Public sports are to be held July 1 and a cordial invitation is extended to all to attend.

WAPITI NEWS

WAPITI, June 26.—The Wapiti rodeo and sports were held on Wednesday, June 21, with a crowd of nearly 200 people in spite of the threatening rain. The main event of the day was steer riding, mule riding and bronco busting, which was enjoyed by all.

Len Gibbons, the announcer at the corral, attracted as much attention as the broncos.

"Muddy Water," belonging to Carlin Jensen was the first horse out of the chute, throwing Bill Carlson.

Dave Ahern rode "Wildfire" to a

standstill. He showed his ability as a rider again by riding "Million Dollars."

Steve riding also showed skill by letting Eric Remington out of the chute on his own "Cyclone," but gave Eric bit the dust outside the gate. Mr. Remington came out on "Windfall," belonging to Arthur Kitchin, but there seemed no possibility of his winning, as he was soon flying through space.

Val Henning of Aspen Ridge came through the chute on "Tornado," a whitebird of a buckler, that left Val in a heap.

Ernie Hutchison then took a try at "Cyclone," but kland Mordell fairly only a few feet from where "Cyclone" master had bit the dust.

M. Hargrove of Grande Prairie rode "Pickle," a bucking mule belonging to C. T. Troyer. This mule plainly showed that it knew its owner by throwing its rider high, wide and

fast. Alex Shetter rode "Ginger," another mule owned by C. T. Troyer, but it seemed more inclined to run than to buck.

Don Finlay then rode "Pickle" to a finish. In baseball Wembley defeated Wapiti with a score of 4. Wapiti then defeated Aspen Ridge by a score of 10-15.

Millarston defeated Aspen Ridge in softball by a score of 10-15. In basketball Wapiti defeated Wapiti with a score of 10-15.

Boxing was another feature of the rodeo, the following taking place: Len Gibbons, two rounds; Len Gibbons and Herb Briggs, one round; Don Finlay and Joe Gieske, one round; Herb Briggs and Joe Gieske, one round.

A dance was held at John Ivers' on the 26th. The dance was a success, the quilt that was raffled by the committee.

Mr. and Mrs. Robt. Rutledge left for Winnipeg last Wednesday by car. James Rutledge is mail man now his father's away.

James Thomson is employed on James Smith's farm north of Wembley at present.

Pupils of H. L. Vaughan Heard In Recital

The parents and friends of the pupils of H. L. Vaughan were given a treat last Friday evening when Mr. Vaughan presented some of his pupils in a recital, held at St. Paul's United Church.

From the youngest pupil, a five-year-old child, to the oldest, a young man of 18, there were indications of careful training and perfect command of confidence and self-reliance.

A pleasing feature of the evening's program was the presentation of the pupils in the order of their age, from the youngest to the oldest.
